THINGS TO DO

Cellar Tour | R100

Our guided cellar tour takes you on a journey through our vineyard and winery. One of our friendly members of staff from our Tasting Room will be your guide for the cellar tour. They are thoroughly equipped with knowledge of the winemaking process, farm and surroundings. If any of the other winemakers are available at that time, they will provide further insight to the tour group.

Garden Tours | FREE

Not all garden tours have this special feature, and we are very proud of how the matriarch of Van Loveren, Ouma Jean, planted trees to commemorate special occasions.

The Van Loveren Garden hosts many tree species that were planted by Ouma Jean to commemorate important moments in the family as well as historical events of significance - the end of WWII or when Mandela became president of South Africa.

Hiking & Birdwatching Trails | R70

The 7.5km Fish Eagle biodiversity trail was named after a pair was sighted breeding near the river. This rugged but rewarding trail offers breathtaking views of the valley, and a large selection of birdlife and diverse range of flora and fauna. Around 200m from the start of our hiking trail, you can expect to come across an olive

melillite pipe. Geologists confirm this type of rock is the remnant of lava that cooled and solidified before reaching the earth's surface to erupt as a volcano. For those who enjoy dog-friendly hikes are welcome to bring their furry friends.

You will need to purchase a permit and sign an indemnity form but you can do that upon arrival.

Running & MTB Trails | R70

There are a number of trail running and MTB options at the Family Vineyards:

The Java MTB trails offer a 2.5km and 10km option. Occasionally, these are open to the public as fun run events, so join our circle if you would like to be informed as to when this is happening. The 10km route boasts around 200m elevation and is rugged and incredibly beautiful.

The Fish Eagle Hiking Trail is a 7.5km trail running route which is widely enjoyed by locals, from families educating their children in local fauna to weekend warriors who want to improve their personal best times.

The Story of VAN LOVEREN

For 3 generations, the Retief family has been cultivating exceptional grapes and crafting exquisite wines that reflect the unique terroir of the region.

Van Loveren has been in the Retief family since 1937 when Hennie Retief acquired the farm, Goudmyn F. Hennie's wife, Jean (née van Zyl), persuaded him to rename the farm after Christina van Loveren, an ancestor whose bridal chest she had recently acquired from an aunt. This mahogany trousseau chest dates to 1699 and is proudly on display in our Van Loveren Tasting Room today.

By the late 1960s, Nico and Wynand Retief joined their father Hennie in producing noble cultivars for the Stellenbosch Farmers Winery. On October 23, 1980, Hennie's 67th birthday, they launched the first Van Loveren wine with 500 cases of Premium Grand Cru, sold at the cellar door and select retailers.

In the 1990s, Nico's sons, Bussell and Hennie, and Wynand's sons, Phillip and Neil, joined the family farm. Today, the four cousins drive the company: Hennie and Neil are viticulturists, Bussell is the Cellarmaster, and Phillip is the Managing Director.

The brand symbol **VRL** places the **Retief family** at the centre of Van Loveren. The Retief family's commitment and values are the heartbeat of the wine farm and the wines are built upon the passion and dedication of a family working together.
